Please consult actual samples for accurate powder coating colors.

Exclusive DSI Powder Coating Process

DSI's proprietary 10 step powder coating process provides an uncompromising quality created by state-of-the-art technology. Our system is certified by the Powder Coating Institute providing peace of mind in your investment. Our powder coating is verified by the American Architectural Manufacturers Association (AAMA) / Fenestration and Glazing Industry Alliance (FGIA) and is covered by a Lifetime Limited Warranty.

1 The raw premium-grade aluminum is inspected to be free of blemishes and is not exposed to the outdoor elements.

2 The product enters a heated acidic cleaning stage to remove extrusion debris and fabrication oils.

3-6 **Clean:** City water rinse
Cleaner: Recycling reverse osmosis water rinse
Cleanest: Pure reverse osmosis water rinse
Sealer: Dried-in-place aluminum sealer

7-8 A 200 MPH air blast removes water drops from the pre-treated aluminum. A convection oven completes the dry-off process.

9 Powder is applied with 18 automated and 2 manual spray guns. Compressed process air is dried to -35°F Dew Point for superior adhesion.

10 The powder coating is then bonded and adhered to the aluminum substrate in a 400 degree cure stage.

ROUND COLUMNS

Round Fluted Columns are complimented by matching split capitals and bases. These structural columns are available in 6", 8", 10", and 12" diameter. Westbury® Columns are ideal for commercial and residential uses. Round Columns can be utilized to wrap around existing posts, which may require modifications.

Round Fluted Columns

	Column Size (Nominal)	Shipping Weight (lbs.)	Outside Diameter (A)	Inside Diameter
■	6" x 8'	19	6"	5-3/8"
■	6" x 9'	21	6"	5-3/8"
■	6" x 10'	23	6"	5-3/8"
■	8" x 8'	24	7-5/8"	7"
■	8" x 9'	27	7-5/8"	7"
■	8" x 10'	30	7-5/8"	7"
■	8" x 12'	32	7-5/8"	7"

8"	10-1/2"	1-15/16"
10"	12-9/16"	2-11/16"

*Capital or Astragal is cut (does not snap together)

ACCESSORIES & OPTIONS

Brackets

Tie Down and Angle Brackets are designed to protect Westbury® Columns from lateral movement should an object impact a column.

Angle Brackets

Packaged as an 8 pack (eight brackets required per column)

Note: Columns that ship with a capital and base included in the box will also include an 8 pack of Angle Brackets

Tie Down Brackets

Packaged as a 2 pack (four brackets required per column)

Uplift Kits

Uplift Kits are designed to protect Westbury® Columns during high wind situations by reducing vertical movement of the column.

Round Fluted Column Adapter Kits

Westbury® Columns work well with PolyRail® Vinyl Railing and Westbury® Aluminum Railing. Round Fluted Aluminum Columns require an adapter to create a flat surface to allow the rail connection. Once the adapter is mounted to the column, the rail mounts easily to adapter and column.

PolyRail® Vinyl Railing

Available as a 4 pack (2 top and 2 bottom adapters)
Adapters shown are a close approximation, the length may change based on the style of railing

Pilaster

Westbury® Columns are offered as pilaster (half columns) or with specialty cuts to allow for unique installations. Round and square column, capitals, and bases can be cut to meet special installation requirements.

Pilaster Cuts

For those special projects that may need a unique pilaster column, DSI has the ability to meet your specifications.
